**RiskMeter Solves NY Premium Tax Code Reporting Dilemma for Insurers**

Boston, MA, September 2005 - CDS Business Mapping, LLC a leader in online property risk mapping, today announced that it has added New York to its Premium Tax Code Report on the RiskMeter Online ([www.RiskMeter.com](http://www.RiskMeter.com)). This brings the total number of states to six!

In New York state, identifying the proper premium tax code is a very difficult process, because the codes are assigned by fire district. In the past there was no easy way to get the proper codes. Now, using the RiskMeter Online, insurance companies can get the proper codes in real-time by simply typing in an address. In addition, CDS can also process an entire book of business in batch for an insurer.

Unlike city or zip code based solutions, the RiskMeter's mapping files accurately reflect the official boundaries regardless of the mailing address. What once used to be a time consuming and error prone process can now be done in a matter of seconds. For more information, please contact Daniel Munson, VP of Sales and Marketing at 617.737.4444 or [dmunson@cdys.com](mailto:dmunson@cdys.com)

**About RiskMeter.com**

For property underwriters and agents who are looking to increase accuracy, productivity and overall speed of operations, the RiskMeter Online ([www.RiskMeter.com](http://www.RiskMeter.com)) is an Internet application used to automate property risk reports. By simply typing in an address users can get back natural hazard information for a given policy location. The

RiskMeter can perform more than 30 different lookups, including distance to coast, rating territory, flood zone, windpool eligibility, proximity to brush and EQ hazards. Unlike conventional paper-based lookups, the RiskMeter Online provides you with accurate, efficient and defendable positions up to 90% faster than existing methodologies. For more information, please visit [www.RiskMeter.com](http://www.RiskMeter.com) or call 1.800.746.7797

### **About CDS Business Mapping**

CDS Business Mapping, LLC., was founded in 1994 as a desktop mapping sales and consulting company. CDS is dedicated exclusively to the creation and implementation of mapping solutions using GIS (Geographic Information Systems) technology. In addition, CDS provides a full line of mapping software, application development services, Internet mapping development, training and consulting. Based upon client requirements, CDS can provide on-site consulting, customize software for particular applications, or create custom maps on a service basis.
